R. Kelly - Speakin' my language

You're speakin my language(my language)
You're speakin my language(my language)
Speakin My language, my language, my language, my
language, my language, my language..

I see it in your eyes
I can hear your body cry
I can tell that you want me
To lay you down and do what a wanna
To you, to you, to you, to you, to you, to you....

I know where off up in this club you rather be
somewhere makin love
I can tell by the way you walkin up to me, Girl I'm not to
mention your touch
You aint gotta say a word to me, cuz I know when
someone won't speak
I'm sippin here to see why you talkin in my ear, you say
that freaky shit
That you know I wanna hear
You know that I know that we should leave this club,
echooo

You're speakin my language(my language)
You're speakin my language(my language)(nooo)
Speakin my language, my language, my language, my
language, my language, my language..

Girl when you walk youre speaking my language
and when you dance youre speaking my language
and when you roll it
and when drop it
girl youre speaking the perfect english
girl you make me wanna
you make me wanna, you make me wanna freakkk you
and you body girl it's so cold
It's so hot you make me drop and go
Do way you look at me like who's thatttt
And girl I'm checkin you like who's thatttt

Then henstenly yeahy
There is a camestry yeahy
In this room, for me and you
I'm sippin here to see why you talkin in my ear, you say
that freaky shit
That you know I wanna hear
You know that I know that we should leave this club,
because...

YouÂ're speakin my language(my language)
YouÂ're speakin my language(my language)(nooo)
Speakin my language, my language, my language, my
language..

So baby let me take you on my rollecoaster
Where we stop girl I dont know
Look at the mirror it's staring at us
Listen to samarra, When we make love
Put you head up, no baby grap my hand
Let's tear this bed up, that what your body is saying

YouÂ're speakin my language(my language)
YouÂ're speakin my language(ey yeah)
Speakin my language, my language, my language, my
language, my language, my language..
youre speakin my language, youre speakin my
language
