Hey baby, I want you to do me a favor
I want you to take all of your thoughts
All of your worries and problems and forget about
them
Because tonight, it's about me and you

No cellulars, no pagers
No two ways, just us
No phone calls, take messages
No family, no friends

I just wanna be alone with you
Girl, I just wanna get it on with you
Well, this I'm hearing, I'll leave a clue
Here's what I wanna do, baby

I just wanna take my time tonight
Holding your body tight, keeping you warm
Nothing's gonna stop this feeling
I'll be giving you sexual healing

I just wanna take my time tonight
Holding your body tight, keeping you warm
Nothing's gonna stop this feeling
I'll be giving you sexual healing

Listen, baby, no bill collectors, no landlords
Your boss is tripping? Just ignore it
You got plans? Call 'em off
The CD, take it off all

I just wanna be alone with you
Girl, I just wanna get it on with you
Well, this I'm hearing I'll leave a clue
Here's what I wanna do

I just wanna take my time tonight
Holding your body tight, keeping you warm
Nothing's gonna stop this feeling
I'll be giving you sexual healing

I just wanna take my time tonight

Holding your body tight, keeping you warm
Nothing's gonna stop this feeling
I'll be giving you sexual healing

I really, really want you, baby, baby
I really, really want you, baby, baby
I really, really want you, baby
I really, really want you, baby

I really, really want you, baby
I really, really want you, baby
I really, really want you, baby, baby, baby

I got to got to got, I got to got
I got to, got to have you, baby
I got to got to got, I got to got
I got to, got to have you, baby

I got to got to got, I got to got
I got to, got to have you, baby
I got to got to got, I got to got
I got to, got to have you, baby

I just wanna take my time tonight
Holding your body tight, keeping you warm
Nothing's gonna stop this feeling
I'll be giving you sexual healing

I just wanna take my time tonight
Holding your body tight, keeping you warm
Nothing's gonna stop this feeling
I'll be giving you sexual healing

I just wanna take my time tonight
Holding your body tight, keeping you warm
Nothing's gonna stop this feeling
I'll be giving you sexual healing
