Deal with this god from the South, a Greenspoint fader  
Laws sweat deep but them hoes just playa-hatas  
This is what you do  
Suck a dick up and hic up and you heard that from Fesu  
I'm wishin these white folks dead  
Put fear in they heart just to see the devil turn red  
Bitch, try to stop me  
Pull my shit off the shelf and go throw you off a carbon  
copy  
I gotta let you know  
I stopped eatin that swine  
Bitch, for the last time  
Fesu gotta check ya  
Drop your ass and ???? damn sho don't respect ya  
Fuck a wood and his wife  
She just good for eatin pussy and suckin on a crack  
pipe  
Them hoes tryin to curse me  
But you can't, bitch, cause it's a war with no mercy

On the cool laws tryin to pop me  
Hell yeah, they say them dopesales gettin sloppy  
Huh - stomach this, I'm about to lose  
Cause my p's and q's ain't keepin the new shoes  
But in the 'Point them hoes takin these  
Cause I'm breakin them bitches down havin dopefiends  
on they knees  
A 9 to 5, I ain't takin that, I'm in for 24  
Re-cookin that bagged dope  
A master at them pot and pans  
Waste my dope, fool, and I'm cold with the bare hands  
Just as cold as it sounds  
I whip your ass with a verb and lay you down with a  
pronoun  
Them hoes tryin to curse me  
Is that a trip? Naw, it's just a war with no mercy

It's a war with no mercy  
When young niggas clown  
Yo ass better duck down  
It's a war with no mercy

You hear the ratatatat  
Yo ass better duck down

At 6 people called me destructive  
Cause I said fuck justice in exemplified ruffness  
An Asiatic black original man, I left my mark  
And my set was a trailer park  
Tuckin them hoes to the curb  
See, your life ain't shit if them actions can't back up  
verbs  
Now what's left?  
Nothin but a punk muthafucka that's scared of Yusef  
Livin in hell, carryin a torch  
Can't play with the big boys, stay on your own porch  
A god, livin like Farrhad did  
Cast yo bid and get a split wig  
In the 'Point we don't play that  
We stick a dick in your mouth and say, "Fool, why you  
say that?"  
This goes to the HPD  
Bitch, it's a war with no (mercy)
