Everything ain't hardcore, you know  
I can't sing but my man  
I'ma let my man smooth that thang out for you  
You know, take the edge off, you know what I'm sayin'?

All my sexy ladies throw ya hands up high  
And all my real playas throw ya hands up high  
And just keep on bouncin' while I take you on a ride

It's like your body's on radio, I'm feelin' you in stereo  
Put me in your CD player, I'm gonna hit it nice and slow  
Baby, I'm your hot mix bumpin' in your cherry Lex  
Checkin' out your widescreen while your hands up on  
the headrest

I'm in the studio thinkin' about my next hit song  
Tryin' to come up with a melody that will turn you on  
On the MPC 3000 tryin' to come up with beats  
That'll make come on over here and lay down here with  
me

I'm searchin' for that special mind blowin' melody  
And it's gotta be sexy so I'll think it through carefully  
It's like I'm tryin' to tune it to ya station, babe  
Try to get you to play this record, babe  
Every time I hear this track, girl, I think about me and  
you  
In the Maybach doin' what we do

It's like your body's on radio, I'm feelin' you in stereo  
Put me in your CD player, I'm gonna hit it nice and slow  
Baby, I'm your hot mix bumpin' in your cherry Lex  
Checkin' out your widescreen while your hands up on  
the headrest

Um, now I know a few friends of mine that has made  
love to this record  
So when you're in the mood call the station, request  
this record  
She walks in the room, says, "'Ly, I can't breathe"  
As I try to catch my breath and proceed

Lookin' at yo' sexy smile, while I put my vocals down  
Girl you have made this song a hit in each and every town  
You a sexy melody with a touch of freakin' harmony  
Such a perfect chemistry

Girl, we deserve a Grammy, or Soul Train  
Billboard, MTV or BET award  
Rollin' like we on a tour  
Ooh, the way you put it down, girl, I can't take it

Sex was so good, girl, we've got to do the remix  
~Cause girl you a mix master  
When it comes to pumpin' you such a ghetto blaster  
It's such a hit that I gotta bootleg it, yeah

It's like your body's on radio, I'm feelin' you in stereo  
Put me in your CD player, I'm gonna hit it nice and slow  
Baby, I'm your hot mix bumpin' in your cherry Lex  
Checkin' out your widescreen while your hands up on the headrest

A melody is the chemistry, the way we click  
It's like four part harmony and all that shit  
Your waistline is the bassline, I ride that shit  
Strung off your treble and I'm high as shit

We made love in the studio  
When we got together over and over again like a loop  
Damn, I'm missin' you, it's hard to listen to  
All these different dudes, huggin' and kissin' you, fuck

It's like your body's on radio, I'm feelin' you in stereo  
Put me in your CD player, I'm gonna hit it nice and slow  
Baby, I'm your hot mix bumpin' in your cherry Lex  
Checkin' out your widescreen while your hands up on the headrest

Yeah, I'm feelin' you in stereo  
Aw yeah, aw yeah, yeah
