(Keep me with a beat)

Some people seem to think  
They always know what's best for you  
Their little minds try to  
Create a world to keep you still

The bolt is strong, the cage is locked  
You saw this, don't you lie  
At first you cry and then you hate  
Those people so you will

Do as you are told  
And maybe they will let you out  
You might be dead and cold  
You might be full of doubt

Don't try to escape  
Cuz you don't have nowhere to go  
If nothing is your fate  
There's no scenario  
No nothing

Do you call my name?  
Do you stain my brain?  
My eyes are blurry,  
And I can't see you anymore

Do you call my name?  
Do you breed my pain?  
My heart is bloody  
And I can't take it anymore

So you just sit there stuck  
Afraid to risk reality  
Afraid to cause yourself more pain  
To face insanity

But nothing ventured, nothing gained  
You see, your fear's your cage  
You beg for help but you're alone  
Stuck in a helpless rage

Do as you are told  
And maybe they will let you out  
You might be dead and cold  
You might be full of doubt

Don't try to escape  
Cuz you don't have nowhere to go  
If nothing is your fate  
There's no scenario

(It's me)

(I see)

(Please)

(Let me out I'm petrified)

Do as you are told  
And maybe they will let you out  
You might be dead and cold  
You might be full of doubt

Don't try to escape  
Cuz you don't have nowhere to go  
If nothing is your fate  
There's no scenario  
C'mon

Do you call my name?  
Do you stain my brain?  
My eyes are blurry  
And I can't see you anymore

Do you call my name?  
Do you breed my pain?  
My heart is bloody  
And I can't take it anymore

Do you call my name?  
Do you stain my brain?  
My eyes are blurry  
And I can't see you anymore

Do you call my name?  
Do you breed my pain?  
My heart is bloody  
And I can't take it anymore
