[Intro] J.Loot:

Uhn,
Ladies and gentlemen,
Boys and girls,
On behalf of the Money Gang,
Greene Team presents,
Dat Dood Race,
Yeah,
It's something epic.

[Verse 1] Race:

She something special, (haha)
She something special,

And I love it when she go,
And I love it when she sing,

She got me speedin through the fast lane foot on the
pedal now,
Never did I think I really want to settle down
I think she really something special
Back when I was lonely, she the one who came to the
rescue, (yeah)
And my shorty real right,
Text all day then we talking all night,
And if I don't pick up, then shorty call twice
Just to check on how I'm doing making sure I'm alright,
(uhn)
She my other half,
Everything is right, I just want to see how long the love
will last
I understand her I know she understand me
She the type who I can show off to my family,
No lies I'ma keep it real it real with her
Got me playing out my homies just to come and chill
with her,
Race ever falling in love?
Who would've thought
She giving me her all so I'm giving her my heart
And the way I'm feeling I been feeling from the start

And we say them three words almost everytime we talk
Uhn, and I know it's not lust
Me and you against the world just the both of us
And everything I do I know she like it
I'm young but, she the type who I can spend the rest of
my life with,
I call her bae,
Cuz everytime I'm feeling upset, or feeling hurt I know
my shorty gonna say

[Hook]

I got you,
And you got me,
We got each other girl,
And I got you,
And you hold me down,
You're like no other girl. (x2)

[Verse 2] Race:

Even though we might fight, disagree, and argue,
She the only girl I want to give my heart to,
It's like magic how she can flip a frown
Listening to Chris Brown
While I take her down,
All the feelings that I feel deep inside about to come
out,
Cuz in the worst weather babygirl bring the sun out,
We gonna stay together
I tell her everyday that she's my nothing cuz I know that
nothing lasts forever.

[Hook]

I got you,
And you got me,
We got each other girl,
And I got you,
And you hold me down,
You're like no other girl. (x2)

[Verse 3]

It feels good just knowing that somebody else love you
And can't let go, everytime they want to hug you
My shorty all that,
She always on my mind so it's hard for me to focus
when I'm writing a rap (foreal)
Loving her is what I choose to do,
Breaking her heart, is something I refuse to do,

Make our own love songs we get musical,
And we make a perfect couple cuz she beautiful
Just wanna hold her tight, when my arms around her
Took me a couple years but I think I really found her,
And my boys they be looking at me funny cuz
All my life I said that I'm in love with the money,
She my main squeeze, so I hold her in a tight grip
Never did I think that I would see myself like this
I don't never wanna break up,
And if this a dream come true then I don't ever wanna
wake up.

[Hook]

I got you,
And you got me,
We got each other girl,
And I got you,
And you hold me down,
You're like no other girl. (x2)

[Outro]

You all I got,
And I'm all you got,
And we all we got,
It's only us,
Me and you,
Until the world blow up,
My shorty know.
