in life, the days that we spent
we killed all that was decent
in death, our days are regret
we'll see all that we missed

Edens come, come at last
she'll save us from this
with her prose, a certain poise
please god, just one more kiss

hey girl, lift your head

the world is beautiful

Lie to me, Lie to me
Tell me I'm special
It may do more harm than good
but when has that stopped you?

Lie to us, Lie to us
Whisper precious nothings in our ears
and hope that we hold on
to every single one

you know we will....
one lover says to the other
"I don't care what they say"
"I think I love you"

the ease of such a phrase
a simple pleasure, void of meaning
whoa, whoa, slow your pace
this is only make believe

but feelings make it seem so real
