Master, please stand up

Don't you still have hope?

Loyal I remain

Resolved to hold you close

Still we try

To fix this life

You've told me only lies

I don't need this life you know

You think you've come to help

All you've done is harm me

"Please die", they say

Give it up

"Please die", they scream

Come with us

We'll end your pain

We'll stop this fight

You've fought too long

It isn't right
