You see, as a child, I was wronged, abused and  
touched  
and now I am harm, infantile misuse of trust

The waterfall methodology forces me to be  
oh so brutal, as I should be

The solution, as I should be

I am a waterfall of hate  
and I will  
consume your plane for it's misgivings

I am a waterfall of hate  
and I will  
consume your plane for it's mistakes

in my world  
there are no second chances

so destroy this buffer  
let us get right to the good stuff  
you know you want it  
things will be so much better

I am a waterfall of hate  
and I see  
you've gotten used to this, oh well  
well everything good must die  
and this is no different  
the time has come for  
the time has come for

The Long and Dirty Solution  
you needn't say it's name  
we haven't got all day

The Long and Dirty Solution  
you needn't say it's name  
we don't have all day
