Verse 1:

Climbing on a cloud
Dancing on a day dream
I don't have a doubt
Just how good this life can be
You lift me up

Running in the rain
Singing in the sunshine
Telling all the world
Why I'm so in love with life
You lift me up

Chorus

You lift me up
I'm touching the blue sky
You lift me up
I'm on top of the world
You lift me up
I'm getting closer to heaven
In every little thing I love
You lift me up

Verse 2:

Headed for the stars
Riding on a moon beam
Taking me so far
Farther than I've ever been
You lift me up

(chorus)

Bridge:

And it's so crystal clear
I'm in looove
All I'll ever want
All I'll ever need
Is right here
