I know you believe me but who are you  
Who could make you whisper if it's the truth  
If it's trouble leaving  
Let it go  
All this trouble you cause  
No one has to know

I keep spitting it out  
I can't keep it down  
Can't keep holding it out  
It's going to hit the ground  
Can you stop that sound  
You only have to ask

I know you've been waiting  
I have to  
You keep looking this and that way for a clue  
If it's all so easy take your time  
Now I'm all fucked up so make up your mind

I keep spitting it out  
I can't keep it down  
Can't keep holding it out  
It's going to hit the ground  
Can you stop that sound  
You only have to ask  
You only have to ask
