I want to love you  
But I'm afraid to love you  
I want to kiss you  
But I'm afraid to kiss you  
My soul is burning  
See me shiver with anticipation  
I think I know you  
I think I recognise you  
Didn't I break my heart?  
Didn't I break my heart?  
Didn't I break my heart over you?  
I want to love you  
But I'm afraid to love you  
I want to kiss you  
But your kiss is deadly poison  
It seems to me that  
You don't know the meaning of virtue  
I want to hurt you  
But I was born to be an angel  
Didn't I break my heart?  
Didn't I break my heart?  
Didn't I break my heart over you?  
Is this the real thing  
It feels like everything  
My head's exploding  
Every time i touch you baby  
I don't want to  
But I'm going to  
I want to love you  
But I'm afraid to love you  
I want to kiss you  
But I'm afraid to kiss you  
My soul is burning  
See me shiver with anticipation  
I think I know you  
I think I recognise you  
Didn't I break my heart?  
Didn't I break my heart?  
Didn't I break my heart over you
