Maybe if I could I would shoot you up inside my vein  
Feel you rushing round inside me  
And maybe if I could I would let you loose inside my  
mind  
You take me some place that they will never ever find  
me  
If you see my heroine tell her that she made me feel  
bad  
Cos every time Im with her I feel so small  
My heroine, tell her that she made me so mad  
Cos I need her so bad  
When she's not there  
Maybe if I could I would get rid of all of your tears  
Rip up all of your pain  
And maybe if I could you would tell me how I feel inside  
Kiss you in the pouring rain  
If you see my heroine tell her that she made me feel  
bad  
Cos every time Im with her I feel so small  
My heroine, tell her that she makes me so mad  
Cos I need her so bad  
When she's not there  
When she's not there
