My new best friend is head over heels
And you'd better believe it
And I've got a strange desire
My whole life is rain
It's such a shame about my chemical girlfriend
What's a boy to do?

(Chorus)
Oh my god, bless my soul
All I want to do is kiss you baby

Our flesh is not our own
So we moan on the phone and hope that god won't
hear us
Oh, it's hard to be in love
And I get a storm inside
Every time he calls me "baby"
I can't excuse myself

Oh my god, bless my soul
All I want to do is kiss you baby

This is the first time

My new best friend is head over heels
And you'd better believe it
What am I going to do

Oh my god, bless my soul
All I want to do is kiss you baby
