Chorus:

Your the first time that I experienced true love
And your the first time that I ever had my first kiss
And your the first time that I ever loved me for me
Your the first time that I ever felt free

Bridge:

The first time that ever saw you
I didn't get struck by cupid
I know that sounds stupid but I didn't

Chorus

1st verse:

I didn't see the way you were at first
Because you acted too tough to see
Then it hit me baby I was in love

Chorus

2nd verse:

At first I couldn't explain
Then I started to complain
Maybe this love wasn't for me
Because I was too young
But I couldn't hang on for too long

Chorus fades
