Chorus:

I'm in love
With all my pride and denity
For once I can be free to say
I'm in love
I don't have to be afraid to admit it
You should believe me
Because I'm in love with you

Bridge:

I've known you for a long time
Never even showed a sign of chemistry
Can't even speak
My knees are so weak when I'm around you
Kept it unknown
Now I'm showing you

Chorus

1st Verse:

Today I'm here to say
You've shown me true love
Never known anything about true love
Until I meant you
You made me feel glad
Never feeling sad

Chorus x2

2nd verse:

Gave me confidence
Saved from all the pain
That could have gained on me
Calling me everynight
To tell me everythings alright

Chorus fades
