[JOE]

Goodbye, old girl

My old girl

When you awaken I'll be gone

Can't tell you where I go

It isn't fair, I know

But trust in me and carry on

Goodbyr old friend

My old friend

There's sometin' I must let you know

I haven't said it much

I guess I've lost my touch

But, my old girl, I love you so

No I know it hasn't all been rosy

We've had squabblin' days when tears were brought
about

But in a moment or two we would bill and coo

And never even knew

What we fought about

And now you Joe has to go

But he'll come back to you again

So sleep your sleep, old girl

Our love will keep, old girl, till then

My old girl

Goodbye
