Verse:

Do you really think I'm impressed  
By the way you dress its all in your eyes  
I still wonder why my heart skips a beat for you and we  
know  
Our fights our endless nights teach us something good  
you always said  
Have you ever found someone, you knew you were  
meant for?

Pre Chorus:

The clouds will turn from gray, the sun will break (the  
sun will break through day)  
All these games we play, will hold it all together

Chorus:

How did I  
Get so caught up in this moment you always said this  
world was big enough for two  
And I  
Haven't slept in days, I always wonder what you're  
doing, where you are

Verse 2:

A year ago when we first met  
Improbable romance was at its best  
Our worlds were slowly changing we stepped out of the  
rain knowing that  
Stars are beaming and were both dreaming of the  
words  
Ill never leave your side its a hope, its a spark  
Its a start of something knew

Bridge:

Lets promise one thing, that no matter how hard this  
gets will always find a way to pull through  
All this silence and I'll climb these mountaintops and  
find another way to be with you (Just cross your fingers  
and hope for the best)

End:

Its all you wanted to know that I'm as fragile as you
