Verse:

So I find myself in this old and beat up hotel room
again
Scrolling through these photographs, flipping through
my notebooks one by one
Empty pages that I meant to scribble on, loneliness is
like a drug. It kills
Now, I'm outside your door
I'm not leaving, I won't touch
Can I be the song you used to love? these lyrics leave a
hint inside your heart
Leave me breathless in this blistering cold
Unwrap the smile you love to hide, don't close the door
this time just hear me out.

Pre-Chorus:

What you never said, what you never said
Was how you felt about this (story)
Leave it and regret, leave it and regret
I'll slowly slip away from knowing

Chorus:

You and myself included
We'll pick up where we left off
I'll be your favorite late night song

Verse:

We're here tonight, we share this breath, I stutter to get
my words across
I'm playing you our favorite song, So we're locked out
and you're still waiting
Hoping for the change in me, I'm sorry I'm the worst
example
Boys you better listen up, don't let girls like this go

Bridge:

Can you hear me I am screaming
It's not enough
5-A Moment Or A Lifetime

Verse:

So dry your eyes

Believe me when I tell you, we will get through
One day at a time, you're finding out
This will only help you

Pre-Chorus:

We all pray just one more and I'm okay
When sleeps the only medicine for this

Chorus:

Keep dreaming while you're sleeping
I am so afraid, this will never be the same until you're
gone
Keep dreaming while you're sleeping
When you wake this might take a moment or a lifetime

Verse:

Did you hear, we traded memories for tears
It's time for our finale, we all pray just one more and
I'm okay
When sleeps the only medicine for this

Bridge:

Don't forget
You have your life in front of you
Don't look back now never say you're sorry can't you
see what he has done
You tell me he's deserving you say he's the only one
Hold your breath this time
Now let it out
It's not worth it, it's not worth it
When you say...
6-Restless

Verse:

Polish me and make me new
Kiss me like I never knew
I long for lips to touch mine, for your hand to fit mine
You hit me like a heart attack so serious but yet so
pleasant I
Never felt this good girl
I spend each night under the stars, formulating
constellations for you
Every minute, every day I'm restless in my bed there's
room for two

Chorus:

You're everywhere, every glance over my shoulder,
every leaf that hit's the ground
Every moment I'm without you
I fall apart like a broken piece of record
I'll repeat all of my plea, I'm a mess without you darling

can't you see?

Verse:

I wanna learn the gentle way to bite your lip
Lock those doors to see those hips
I cannot breathe without you
I need to know, need to know just how you feel
My heart is dying, aching for something real

Pre-Chorus:

Oh, you got me thinking girl
I'm down on my knees
Come on breathe in baby
It's what I need

Bridge:

This is where we end up tonight
