This is how we all were taken
Stolen while our eyes were closed

Never mind running,
It's far too long to go
Never mind running too far

They're falling from heaven,
Watch them all go
One through eleven,
Souls in a row

Baby your love, as far as I know,
Is a serial killer
(Serial killer)

This is how your heart was broken
Bulletproof but not from love

Never mind running,
It's far too long to go
Never mind running too far

They're falling from heaven,
Watch them all go
One through eleven,
Souls in a row

Baby your love, as far as I know,
Is a serial killer
(Serial killer)

We're burning together
Touch to ignite
Don't tell me wether
It's wrong or it's right

Baby your love, I told you last night,
Is a serial killer
(Serial killer)

One by one,

They all fall down
Angels' wings are on us now

So run, and run
But there's no escaping sound
C'mon, and take me down

-boy:"hey, what's up?"

-girl:"this is kinda a bad time"

-boy:"well, can I just talk to you for a second? I just
wanna..."

-girl:"you really wanna do this right now? seriously?"

-boy:"do what? I just..."

-girl:"you just wanna what? tell me everything we do is
wrong? tell me you just wanna be friends? yeah I know
the way it goes, leave me alone"

phone beep

They're falling from heaven,
Watch them all go
One through eleven,
Souls in a row

Baby your love, in case you don't know,
Is a serial killer
(Serial killer)

Serial killer
(Serial killer)
Serial killer
(Serial killer)

Baby your love, in case you don't know
Is a serial killer
