"It's Complicated"

I drove alone, with nowhere to go, without my navigation
You wanted love and I gave more than I could afford
Its complicated when Im fading, when Im wrong
Youre wrong, youre wrong Its complicated when youre asking for the world
Youre wrong, youre wrong
This is the apex of my obligation Im counting stars in your eyes while counting seconds
But I just couldnt get enough of you
When I knew you felt the same
Honestly I never though that You and I could make this work
Well pray for emotion Ive made mistakes Because I make mistakes
