Who ever knew youd be the one whos leaving
Leaving with so much on your mind
And I know that this is hard (just to give it up)
We were the movie stars
Of our favorite movie with the best lines
The ones that we believed

And I, Im gonna finish what we started
Ill write the words and live the moments
Without you
And I, Im gonna finish what we started
I wont miss a beat and I wont miss a rhythm now

Scream. Shout. Let it all out
Youve been choking on your words for too long
And I know that this is hard(just to give it up)
We were the movie stars
Of our favorite movie with the best lines
The ones that we believed

And I, Im gonna finish what we started
Ill live our dream without you
