Beauty will destroy your mind
Spare the gory details
Give them gift wrap for the man with everything

Though I lived a lonely life
I was confused
I'm butcher
Feel nothing

As it closes up my arms
The position of the worms
Up, up, through my heart
Into my brain

I'm the big slack basic combination
Cut out
Chop, liver on the block
My heart still pumping
My heart still pumping

He's a warrior, warrior
He's a little bitch coming out of him
He's a warrior, warrior
He's a little bitch coming out of him
Coming out of him
