So you think your life is shit! Well think about all the
dead damn kids. Theres freaks in this world
massacres and mafia's. Well blood is near and and i
can hear the demons coming to kill.

(chorus)

So murder! all those thoughts and kill for all ya got, So
murder! And kill even if it makes you ill

People are beasts from the underworld, they kill and it
feels like a poisoned pill.

Blood is flying out. They will cut your gut open and
watch your intestents ouge
out. And make cells die out.

(chorus)

So murder! all those thoughts and kill for all ya got, So
murder! And kill even if it makes you ill.

Somebody help me!!!!
