Turn on the radio, nah fuck it, turn it off
Fear is your only God on the radio
Nah fuck it, turn it off

Turn it off, turn on the radio, nah fuck it, turn it off
Fear is your only God on the radio
Nah fuck it, your Saviour, my guillotine
Crosses and kerosene

Merge on the networks, slangin' nerve gas
Up jump the boogie then bang, let 'em hang
While the paranoid tryin' to stuff the void
Let's capture this AM mayhem

Undressed and blessed by the Lord
The power pendulum swings by the umbilical cord
Shock around the clock from noon 'til noon
Men grabbin' they mics and stuff 'em into the womb

Terror's the product you push
Well, I'm a truth addict, oh shit, I gotta headrush
Sheep tremble and here come the votes
Thrown from the throat, cages and scapegoats

Undressed and blessed by the Lord
Tha same devil that ran around Managua with a sword
Check out the new style that Ollie found
When I tune in with a bullet to shut down the devil
sound

Shut down the devil sound
Programs of Vietnow
Shut down the devil sound

Turn on the radio, nah fuck it, turn it off
Fear is your only God on the radio
Nah fuck it, turn it off

Turn it off, turn on the radio, nah fuck it, turn it off
Fear is your only God on the radio
Nah fuck it, your Saviour, my guillotine
Crosses and kerosene

Flex the cerebellum, fire, uh
Somebody gotta shell 'em
These evil angels lists, hittin' the AM playlist
Paid to say this

That one inhuman, illegal, single woman
The one without a room
The transmissions wippin' our backs
Yeah, comin' down like bats from Stacy Coon

Terror's the product you push
Well, I'm a truth addict, oh shit, I gotta headrush
The sheep tremble and here comes the votes
Thrown from the throat, cages and scapegoats
One caution the mics, a detonator unwound to shut
down the devil sound

Shut down the devil sound
Shut the heads, bow in Vietnow
Shut down the devil sound

Is all the world jails and churches?
Is all the world jails and churches?
Is all the world jails and churches?
Is all the world jails and churches?
Is all the world jails and churches?

Radio, nah fuck it, turn it off
Fear is your only God on the radio
Nah fuck it, turn it off

Turn it off, turn on the radio, nah fuck it, turn it off
Fear is your only God on the radio
Nah fuck it, your Saviour, my guillotine
Crosses and kerosene

Fear is your, fear is your, fear is your only God
Fear is your, fear is your, fear is your only God
Fear is your, fear is your, fear is your only God
Fear is your, fear is your, fear is your only God
