"Race Riot"

Visit "[Race Riot](#)" on MotoLyrics.com

Bloody riots on the streets, the niggers run amok
Tremble in fear, white man, the reaper's in the
shadowland
Save your children, lock your doors
You can't come out here no more
On this eve, blood shall be shed
The streets and rivers run deep red

Ref: Don't you know we're fighting a race riot, race riot!
Don't you know we're fighting a race riot, race riot!
Don't you, don't you know? x 2
White man!

Violence, anger released full-force
Racial tensions explode their course
You could've made all so well
Now your land's a living hell
Angry war of hate and pain
While our hope goes down the drain
Simple answer long ago
Now you're faced with a nigger foe

Scream in vain as all comes down
All your sons cannot be found
Watch your wife and daughter raped
But you can't stop those wild apes
You know you should have realized
When you looked into their eyes
What they had in store for you
Now there's nothing you can do
