"Triumph Of The Will"

Visit "[Triumph Of The Will](#)" on MotoLyrics.com

I can hear the rumble on the streets
I can see the look in our eyes
I'm more convinced with every person that I meet
We don't believe the jewish lies

Ref: (Oh oh) I can see us coming on
(Oh oh) I can see the brand new dawn
(Oh oh) WHITE MAN! Stand, march and kill!
I always knew we'd have our day -
Triumph of the will!

We're marching, we're gaining in our might
We're standing up for our racial nation
Picking up the torch of ancestral fight
And the taste of victory fills us with elation

Creativity will win our war
We'll regain the glory of before
Nothing's gonna stop this religious creed
'Cause creativity is all we need
