I'll find a way to my memories
Where hope is stuck somewhere deep down
I'll find the way to my memories
If I can find a path hope will be found

I'll let you have my crown

I will go down in history for all the things I've said and I
have done
If I can find a way to love
If I find a way to control
If I find the path I will redeem myself
And find my memories

Can't live my life through my memories
I will not be narrow-minded at all
You shall enter his kingdom as a child
Or you shall not enter it at all

You should stay and take the fall
I will go down in history for all the things I've said and I
have done
If I can find a way to love
If I find a way to control
If I find the path I will redeem myself
I'll find my memories

Regain our fate
(Memories)
In our unspoiled past
(Memories)
Let's regain our faith
(Memories)
In our unspoiled past
(Memories)

Yes, I will go down in history
