Ambiguous let people feel wronged  
Could not find the evidence of loving each other  
When should go forward, when should give up  
Even do not have courage to hug

Ambiguous make people become greedy  
Until waiting lost its means  
Pity that me and you could not write out an ending  
To put the regretful beauty

Only can accompany you till here  
Afterall there are some disallow matters  
Surpassing friendship still not reaching the love stage  
The scenery in the distant location is going to rain

Should or should not cry  
Thinking too much I still think of you  
I feel very inconvincing  
And starting to doubt  
Is the person in front of me the same real you
