You can always underestimate people's brains
But you can never underestimate how they feel
People always talk of things they would not do
So never let them scare you
Never let despise you
Never let them get it in for you
So, please shut your mouth
And open your heart
Don't lose yourself - it's all you've got
So, please shut your mouth
And open your eyes
This world is made for women
This world is made for women
FREE!
So be free, talk free
Act free, feel free
For life's not wrong - you just don't get it
Life's not wrong - you just don't get it FREE!
So, please shut your mouth
And open your heart
Don't lose yourself - it's all you've got
So, please shut your mouth
And open your eyes
This world is made for women
This world is made for women
FREE!
