"The Experiment"

Visit "[The Experiment](#)" on MotoLyrics.com

Nobody told you what happened in your past
Everyone hid you the truth
You're not what you think to be, run away
I saw that, then I cried for you!
Leave the city and never think of revenge!
It's what they want from you!
Don't turn your eyes and don't you stop for a breath
'Cause they'll realize
Blood of lies inside your life
It pressed upon your brain
You didn't know what was the galf
You sometimes felt in mind!
Son of pride and devil's lies
Your being's made up of limph
They pulled it out from their own hands
Sad angel with no God!
Silent fury inside me
Sense of guilt inside you
I must curse my low birth
I want to pray my God!
Hold your remorse!
Shed your load, then growl
Fail of respect!
Let your voice explode!
The 12th of May 1981
A white hand pointed to the crime
A crowded square applauded your pain
I saw that then I cried for you!
Like a child with every toy
They're tired of playing with you, you're old!
Don't turn your eyes and don't you stop for a
breathe
'Cause they realize!
Blood of lies inside your life
It pressed upon your brain
You didn't know what was the galf
You sometimes felt in mind!
Son of pride and devil's lies
Your being's made up of limph
They pulled it out from their own hands
Sad angel with no God!
Silent fury inside me

Sense of guilt inside you
I must curse my low birth
I want to pray your God!
Hold your remorse!
Shed your load, then growl
Fail of respect!
Let your voice explode!
