Clarkworld baby

Uh, uh

Â

(4x)

It's the R baby

It's the god baby

Â

[Verse One]

I got rhymes I love to bust looking for a club to rush

It's like thugs will rush the illustrious

We all love to touch the voluptuous

It's a must that we lust, plus we love to crush

Women pose, from timberland's to feminine clothes

Check there portfolios and put'em in centerfolds

Pen explode, draw crowds respond re-el

I stay calm as hell surrounded by bombshells

Careful as I get near'em, stand near and compare'em

Or all girl heirem, I'm the man with the serum

Assets, probably dressed but still bear'em

It seem like they wear'em, just for me to tear'em

In quakes I see more things shake then spring break

It's like a dream state, perfect shape same date

You got a lot to give and look how hot it is, you so
provocative

and it's your prerogative. Baby bounce.

Â

(Chorus)

Ladies, nothing but the finest ones

The lavishist ones, the ain't hard to findest ones

From the boldest to the shyest ones

Which city got the livest ones

New York, L.A., Atlanta, V.A., Miami, D.C., tell me!

Â

[Verse Two]

Bonjour, baby here go my brochure

Give me a phone call, I'll show you the whole store

Forbidden dance with me? Or tickle your there see
Let Ra take you on a rendez-vous
Couple of days will do if it's o.k. with you
Deserted isle style middle of winter with no bed

You get what you deserve if I said we swerve
I'll hit more than nerve and that's my every word. Baby
bounce.

Dark skinned ambassador, chiropractor with a passion
for smashin' your ass like a cardiovascular massacre
You've be through shock heading at your cu-wop
Body'so hot, you need a shot from your new doc
With better cures where's it sore I'll wetter more.
