Ah, Shawty is hot as it get
She ill, ain't a lot of chicks is out of this deal
A perfect specimen, mommy is it
You ain't gotta be a doctor to see her body is sick
When she move to the music, that moves it, she truth
pick
It always be exclusive, new shit
Designer shoes and jeans, ass ...
Top show what the spring have ...
Ah, showing a cleavage off
With a ...in a wall like a deeper floss
Every squeeze is soft, her skin is that smooth
A lot of sense of spot and hidden tattoos
Coast to coast she likes to pull them clothes
She would open toes, doping those
I got no composure, no control
When you expose a little more than you supposed to
show

Ladies from New York, California, Chicago
The mid west to south truth...
We're off to Japan to Morocco
It feel good in your hands like silken money
Dress ghetto with dress like a model
Sweet as sugar but act like she hard on
On the block on the front row when god shows
They turn ...to the land of milk & honey

Look every stitch of a pro fit her
J Lo figure wanna lay low with us
Don't get with no nigger for chips and no
Ballers try to stick her, she pinched in no ..
I'm quick to go get her, fuck blowing the horn
Knock on the door while she's throwing it on
She's pinning it up ... momy ready here
Would go with any hairstyle like Hale Berry
Dress like a ...patron with every ... club ... restaurant
With every ... nothing you ain't already got
Niggers can't warm you up, you already have
You go to college a job your own dollars and ...
Nail polish ... get massage and chill for real

Hard to feel I know you got ... appeal
Damn you make a nigger wanna holler for real

Ladies from New York, California, Chicago
The mid west to south truth...
We're off to Japan to Morocco
It feel good in your hands like silken money
Dress ghetto with dress like a model
Sweet as sugar but act like she hard on
On the block on the front row when god shows
They turn ...to the land of milk & honey

They ain't understand you, push you over the top
They watch you go off the block you know that you hot
The type of chick that life would say ...
Put that ...shit on and blow off the spot
I could see you at the bitch, martini cup
Wet body, brazilian bikini cut,
And in that ... hut, we chilling, the glow so appealing
Plus you got the genie touch
Gonna play when you got that nba shirt dress on
Taking bounce even with a full court press hard
Lady in the ... stomach you out
We can get it popping like that gum in your mouth
And I love the thing you do when you're play with your
hair
I take you to a ...
Them other lady players they hate what you wear
Cause you look like player ... year

Ladies from New York, California, Chicago
The mid west to south truth...
We're off to Japan to Morocco
It feel good in your hands like silken money
Dress ghetto with dress like a model
Sweet as sugar but act like she hard on
On the block on the front row when god shows
They turn ...to the land of milk & honey.
