And you'll cry
And you'll cry, baby
And you'll cry
And you'll cry... Mmm...

Dark clouds in the distance
The wind has such persistence
You can feel the teardrops from the sky
Oh, god not today, make it go away
Is there some way it can pass 'em by?
I hate to admit, but I know it's true
It's gonna be a long time before I'm over you

You didn't take it easy when you let me down
You didn't let me find a place to fall
But you'll be sorry, baby, when I'm not around
You will see you almost had it all

Again, I read your letter, my heart is beating faster
It's as if I didn't know the truth
Instead, you might reflect, but we should just forget it
Yeah, didn't I tell you there was someone new?

It's so hard to believe it, but I know it's true
It's gonna be a long time before I'm over you,
But I know someday you're gonna feel it

You didn't take it easy when you let me down
You didn't let me find a place to fall

But you'll be sorry, baby, when I'm not around
You will see you almost had it all

And you'll cry (Cry)
And you'll cry, baby (Cry)
And you'll cry, yeah (Cry)
And you'll weep for me (Weep... Ooh...), but I'll be gone
I'll be gone... Ooh... Ooh...

You didn't take it easy... No, no...
Didn't take it easy... (Ooh) Ooh...

You didn't take it easy when you let me down
You didn't let me find a place to fall
But you'll be sorry, baby, when I'm not around
You will see you almost had it all,
You almost had it, you almost had it all...

You didn't take it easy when you let me down
You didn't let me find a place to fall
But you'll be sorry, baby, when I'm not around
You will see you almost had it all

You didn't take it easy when you let me down
You didn't let me find a place to fall
But you'll be sorry, baby, when I'm not around
You will see you almost had it all
