"Good Night Europe"

All the world is dancing night and day
Its feet are strongly beeded
Africa dance with America
From south to northen sea

CHORUS:

Sing good night to Europe
And dance with her from sea to ocean
Light Europe, light from the starts above
In a world of happiness and love

Here she com (here she come)
Australia in a trance
Just like a magic woman
Through the sand (through the sand)
From an exotic land
She's here, Asia apears

CHORUS:

Sing good night to Europe
And dance with her from sea to ocean
Light Europe, light from the starts above
In a world of happiness and love

Sing good night...

CHORUS:

Sing good night to Europe
And dance with her from sea to ocean
Light Europe, light from the starts above
In a world of happiness and love
