Because we're young, we want to live  
And we must teach our heart strings  
How to bend and give  
Because we're young, when life is green  
If your heart should be broken  
Hold on to your dreams  
While we're coming of age, dear  
Heartaches it may bring  
Soon we'll be past that stage dear  
Let's go out and have our frees  
Because we're young, when love is new  
As we search for tomorrow  
Hold me close to you  
So come what may, let's live each day  
Songs are song, life is singin'  
Because we're young
