### "Culture Of Degradation"

Culture of degradation,  
it's a macho-nation,  
culture of degradation,  
fortifies the seperation,

I'm sitting at my home,  
me and my friend TV alone,  
soon he will show to me,  
all the things I like to see,

The degradation has got to stop,  
no more "meat" for the macho-block  
women are humans too,  
satiated minds have got no clue,  
TV-stations do their best,  
to get the biggest breasts,  
dollar-signs broadcast her on the screen,  
because they know it turns on the macho-scene
