ugly pictures  
of chopped up faces  
decomposing limbs  
oh, what a thrill

ridiculous band names  
using snuff, oh so lame  
they attempt to fucking shock  
it's just dumb ass cock-rock

insecurity  
is what they hide  
lack of identity  
in their minds

do you want your dead face  
on a fucking sleeve  
or those who masturbate  
on pics of meat that reeks  
snuff, was never tough  
and we've had it enough  
goredom is boredom  
sick motherfucks!

to shock is their aim  
nice try but in vain  
your so-called twisted mind  
nothing more, nothing inside  
naivety in puberty  
leading to an ignorant scene  
absence of identity  
losers trying to be mean
