Just be careful, with the things you say  
State is watching, you and me  
Reactive minds, are a problematic kind  
They might open minds, which were kept blind

Incarceration, incarceration  
Just because of what I thought  
Incarceration, incarceration  
Just because of my fucking words

Just fucking hear, what the state dictates  
Get them back, by their own debate  
But as you know, the state's afraid  
Of active minds, which they can't enslave

Incarceration, incarceration  
Just because of what I thought  
Incarceration, incarceration  
Just because of my fucking words
