Get up in the moring and I fire it up
Pour myself some coffee in that same old coffee cup
Listen to the engines moan as I watch the rpms
Sometimes it seems that this road never ends

Don't know what it is my baby that keeps u hanging on
Cuz most of our lives I've been gone
Dreamt of thedays that I spend it all with you and the
kids
It's been so long

I'll be in georgia baby by the time u get up
Another worn out day in that big old truck
Road is my life
Hope u understand
U are my wife and I'm a travelin man

Don't know what it is my baby that keeps u hanging on
Cuz most of our lives I've been gone
Dreamt of the days that I spend it all with you and the
kids
It's been so long

Don't know what it is my baby that keeps u hanging on
Cuz most of our lives I've been gone
Dreamt of the days that I spend it all with you and the
kids
It's been so long

Don't know what it is my baby that keeps u hanging on
Cuz most of our lives I've been gone
Dreamt of the days that I spend it all with you and the
kids
It's been so long
