## "Bend Down"

Bend down I order you  
Turning your face back from me too  
I don't need to see it now  
Bend down  
A biped who is on all fours  
I'll lead him down on the floor  
In quick-step we move along  
I'm so displeased  
Now crawling backwards to meet me  
Honey stains his tights so badly  
I'm so displeased  
Sadly displeased  
Bend down  
I've no interest in the rest  
The biped stuttered a short prayer

In fear of what I couldn't bear  
Tried to bend down more and more  
Tears we're running off to the floor  
Bend down  
Bend down I order you  
Turning your face back from me too  
I don't need to see it now  
Bend down, you know how  
Bend down
