Punish me
punish me
straw becomes gold
and gold becomes stone
your size makes me small
you may be my punisher

The lord does take
the lord does give

Punish me
punish me
you mean yes
and I think no
include me in your prayers
before the wind blows even colder

Your size makes me small

you may be my punisher
you may be my punisher

Your size makes me small
you may be my punisher
your size makes him small
you will be my punishment
The lord does take
the lord does give
but does he give only to those
that he also loves
punish me
