I can see you but you can't see me  
I could touch you and you wouldn't even feel me  
Wait a second and you'll settle down  
I'm just waiting, 'til you really let your guard down?  
Your relaxed, your sublime, your amazing  
You don't even know the danger you're facing  
If I'm quiet, I'll slide up behind you  
And if you hear me I'll enjoy trying to find you

I've been with you all day  
I'm trying to stay calm  
i'm impatient and it's really hard to breathe  
I'm going to empty you and fill you in with me

Just keep the violence down  
Not yet - don't make a sound  
Oh God I'm feeling it  
It's reaching fever pitch  
My skin is caving in  
My heart is driving out  
No mercy, no remorse  
Let nature take its course

watch me - Bring me to my knees  
waiting - I am your disease  
lover - set my symptom free  
covered - you won't feel a thing  
you can't stop me

(wait, no, wait, no, wait, wait, not yet, no wait)

I'm sweating through my veins  
I'm trying to hold on  
It's unbearable, it's almost worse for me  
I'm gonna to tear you apart and make you see  
**MAKE YOU SEE!**

watch me - Bring me to my knees  
waiting - I am your disease  
lover - set my symptom free  
covered - you won't feel a thing

It's almost time to play  
It's time to be afraid  
I can't control the pain  
I can't control in me  
I'm glad I'm ready now  
You're almost ready now  
I'm gonna raid it now  
I'm gonna break it down  
I see you in the dark  
I see you all the way  
I see you in the light  
I see you bright as day  
I wanna suck your face  
I wanna suck your soul  
I wanna wear your face  
**I WANT TO BREAK IT ALL**

watch me - Bring me to my knees  
waiting - I am your disease  
lover - set my symptom free  
lover - You don't love me
