Punish me
Punish me
Straw is gold
And gold is stone
You are so big, make me small
You're the master, make me crawl ja
The lord does give
The lord does take
Punish me
Punish me
You say yes
And I say no
Lock me in all you worship
Before the wind's cold hand grips
You are so big, make me small
You're the master, make me crawl

You're the master, make me crawl
You are so big, make me small
You're the master, make me crawl
You're so big you make him small
You will punish me for all
The lord does give
The lord does take
Does he give love to
Those he foresakes?
Punish me
