Shtil' - veter molchit  
Upal beloј chajkoј na dno  
Shtil' - nash korabl' zabyt  
Odin, v mire skovannom snom

Mezhdu vseh vremen  
Bez imen i lic  
My uzhe ne zhdem,  
Chto prosnetsia briz!

Shtil' - shodim s uma  
Zhara pahnet chernoј smoloј  
Smert' odnogo lish' nuzhna  
I my, my vernemsia domoј!

Ego krov' i plot'  
vnov' nasytit nas  
A za smert' emu  
Mozhet, Bog vzdast!

Chto nas zhdet, more hranit molchan'e  
Zhazhda zhit' sushit serdca do dna  
To!ko zhizn' zdes' nichego ne stoit  
Zhizn' drugih, no ne tvoia!

Net, grom ne grianul s nebes  
Kogda pili krov' kak zver'e  
No nesterpimym stal blesk  
Kresta, chto my IUzhnym zovem

I v poslednij mig  
Podnialas' volna,  
I razdalsia krik:  
"Vperedі Zemlia!"
