A small wish, oh if you were blind
we are victims of a bad trick
black glass is everywhere
we are guilty because we are ugly

Black glass, the light blinds me
a small wish, oh if you were blind
black glass, and I see my face again
what can I do since we are ugly?

In front of the middle of a deep fall
and under masks, fades smooth
black glass is everywhere
how beautiful you were is forgotten

Black glass, the light blinds me
a small wish, oh if you were blind
black glass, and I see my face again
what can I do since we are ugly?
