Winter is here and it's going on two years swallow my  
pride

And things were looking very grim but they're looking  
good again  
Swallow my pride

Loose lips sink ships, they say but isn't it always that  
way?  
Swallow my pride, oh yeah, oh yeah, oh yeah

Winter is here and it's going on two years swallow my  
pride

And things were looking very grim but they're looking  
good again

Swallow my pride

Gonna have a real cool time and everything's gonna be  
real fine  
Swallow my pride, oh yeah

Winter is here and it's going on two years swallow my  
pride

And things were looking very grim but they're looking  
good again  
Swallow my pride

Gonna have a real cool time and everything's gonna be  
real fine  
Swallow my pride, oh yeah
