Into the night we can fade away.. (we can fade a way)
Way up in the sky, let me take you away (let me take
you away)
Over the clouds where nobody can go..
Take a trip to the moon, and see how it goes..

Then we can escape
For get about the world we know (for get about the
world we know)
We can break away
Leave it all below
We can make it last for eternity (were gona, were gona,
were gona, were gona)
We can fly like a star
Cause baby we, were meant to be (were gona, were
gona)
We can make it last for eternity
For eternity (were gona, were gona, were gona, were
gona)

Into the blue we can take a dive
Way down beneath where you cant see the sky
Let me show you a world full of mystery
Forget the rules
We'll make history

Then we can escape
For get about the world we know (for get about the
world we know)
We can break away
Leave it all below (leave it all below)
We can make it last for eternity (were gona, were gona,
were gona, were gona)
We can fly like a star
Cause baby we, were meant to be (were gona, were
gona)
We can make it last for eternity
For eternity (were gona, were gona, were gona, were
gona)

Yeahh..

We were meant to be

Then we can escape

For get about the world we know (for get about the
world we know)

We can break away

Leave it all below (leave it all below)

We can make it last for eternity (were gona, were gona,
were gona, were gona)

We can fly like a star

Cause baby we, were meant to be (were gona, were
gona)

We can make it last for eternity

For eternity (were gona, were gona, were gona, were
gona)
