I used to think that she was an angel from the sky
Used to think...
But guys and girls and everybody seems to lie
I don't know why I don't know why
Nothing ever stays the same
I don't know why I don't know why
But she got away with murder and she shoot me
through the heart
And no one was there to see
How she shoot me through my soul
Now I can't even breathe
And she shoot me through the heart
And no one was there to see
How she shoot me through my soul
She got away with murder
She got away with murder
I was a fool (what a fool)
To think that she really loved me for who I am
Was a fool (what a fool)
To let myself go and she's happy in a moment ahead
I don't know why I don't know why (2)
But she got away with murder
And she shoot me through the heart
And no one was there to see
How she shoot me through my soul
She got away with murder
She got away with murder
And I never thought that I would see the day she let me
down
But she had really and now I'm 60 feet under ground
