I fell in love Saturday night
Your face, unbearably clear in mind
The way you were crept under my skin
And all my compliments they fit in
Night bakeries
Ghost-favorites
Pop lingerie
Don't you wish it was that easy, huh?
My flatteries on high batteries
And you next to me is
Pure synergy
Don't you wish it was that easy?
But easy it aint No, easy it aint
Now it's Monday and Ive begun
To question if my ways are wrong
Cause something changed on Saturday
The world held it's breath as you look my way
I bump into you
Like fate wants me to
So what's there to do
If Im made for you?
Don't you wish it was that easy, huh?
My lucky number is on you door
Ive been here before
10 years ago or more
Don't you wish it was that easy?
But easy it aint No, easy it aint!
